DRINKS

Distilleries, Bottling Plants, Distribution Facilities & Visitor Centres

Working **with** leading brands

We are privileged to have some of the world's most famous brands in our client portfolio, whose facilities range from 650 acres to 2500 acres and include distilleries, production, bottling plants, distribution facilities and visitor centres.

We appreciate
**production, bottling,
distribution, visitor
centres and distillery
tours** are key to our
clients' brands.

We understand

Your facilities are highly functional; valuable stock being handled in very busy production and warehouse areas, therefore we take great care to provide staff with extensive Health & Safety training, which includes awareness training of these fast moving environments.

Area of facility

Offices, Meetings Rooms, Catering Points,
First Aid Rooms and Staff Hygiene Facilities

Creating a clean working environment is key to reducing potentially harmful and hazardous impurities in any industry. This is especially important to reduce contamination in production of produce.

Service Solution

We control access and egress throughout site through our security reception service. Our daily cleaning, janitorial and housekeeping services to all areas ensures a clean working environment throughout site. We adhere to a variety of pre-planned bespoke programmes which can include scheduled deep cleans, window cleaning services, high level and specialist services.

Area of facility

Visitors Centres, Theatres, Nosing Rooms, Gift Shops and Restaurants

This is the highlight for most visitors and guests who have experienced the tour and now want to enjoy the hospitality.

Service Solution

We ensure these areas are immaculately clean and ready to receive visitors who will enjoy the experience in a sparkling environment. We deploy a stringent cleaning regime, with robust quality assessments to ensure visitors and guests enjoy every aspect of their visiting experience.

Area of facility

Bottling, Production and Warehouses

We mitigate the potential for cross contamination through robust cleaning methodology guided by industry best practice. This ensures a smooth and uninterrupted production for our clients.

Service Solution

Our daily cleaning service is critical for production walkways, offices, meeting rooms and staff facilities and reduces the risk of contamination.

Throughout these areas daily waste streaming, janitorial and housekeeping services are provided during production hours.

Area of facility

Business Support and Janitorial Support

Supporting our clients through their day to day business activities is a crucial part of our service resulting in a reduction of downtime and increased task productivity.

Service Solution

We provide our clients with a wide variety of service options to assist their business such as reception services, mail services, security guarding, handyman services and front of house cleaning of high profile visitor areas. Our approach to a fully managed service contract lets our clients focus on their core activities, ensuring they operate at their peak efficiency at all times.

Area of facility

External Buildings

The exterior of any building is the first image visitors have of a product and brand. Our managed service solutions ensures that the external of their buildings are maintained to the best standard to always create an excellent first impression.

Service Solution

We provide a wide range of industrial cleaning processes and innovative solutions to give our clients properties the 'wow' factor. Our attention to detail is unparalleled, deploying our highly competent personnel to ensure our clients premises are immaculately maintained to a seasonal schedule.

Area of facility

Ground Maintenance

The presentation and standards of the grounds throughout our clients facilities are just as important as the external buildings and requires regular maintenance.

Service Solution

We provide on-site grounds maintenance personnel to deliver a planned schedule of work, keeping our clients grounds immaculate. We flexibly combine this with periodic requirements to take the strain of managing changing seasonal requirements.
