INDUSTRIAL, PRODUCTION AND DISTRIBUTION

Oil & Gas Industry, Pharmaceutical, Warehouses, Logistics, Distribution Facilities and Manufacturing Environments

Operating in a live manufacturing environment requires care, attention, and expertise.

For over 15 years, Spectrum has successfully delivered services to clients operating within the top tier Control of Major Accident Hazards (COMAH) regulations.

We implement **robust processes** and **procedures** to comply with the **highest levels of health and safety**, delivering our services safely in the most hazardous of environments.

Cleaning

We understand the complexity of our client's facilities; industrial manufacturing areas can generate excess dirt and even hazardous waste, but will also include 'clean' production, testing, distribution, warehousing and office areas.

Every manufacturer's requirements are different; we apply our expert knowledge and understanding of cleaning science to each premises, ensuring our solutions meet the client's needs.

We continuously monitor and improve our performance using our own electronic auditing software to ensure the delivery of an efficient and effective cleaning programme.

Productivity

We know that a settled team of highly motivated people deliver better results.

Service Solution

We invest in our recruitment process, getting the highest calibre of people with the right competencies to perform to the high standards we set all employees.

We provide our staff with the relevant tools and training to support them in their role, and provide ongoing personal development training to allow them to reach new levels of success.

We reduce downtime and maximize efficiency through our continual review of employee productivity, creating greater value for our clients.

3rd Party Auditing

Our clients are regularly audited by 3rd party external bodies such as the FDA in order to maintain their industry accreditations.

Service Solution

We understand the importance of 3rd party audits to our client's business continuity; we deploy tried and tested methodologies to ensure excellent cleaning and auditability of our services.

We operate comprehensive working practices which includes implementation and documentation of tailored cleaning processes, always ensuring absolute transparency that meets the requirements of external auditors.

Flexibility

We understand that production and manufacturing facilities can be in use 24/7. We give full consideration to the range of activities and the optimum time for cleaning.

Service Solution

Our cleaning staff work around our client's operational needs.

We take a holistic approach, considering all elements of our client's business; staff headcount, shift patterns, break times and any other relevant site activities. We then prepare a cleaning schedule which maximizes the cleaning time available.

We continually review this through service audits, ensuring our service always meets our client's variable needs.

Specialist Cleaning

Our clients require a service partner who has the experience, knowledge and understanding of specialist cleaning.

Service Solution

Our highly skilled teams tackle the most challenging of specialist cleaning, delivering excellent standards using the safest methodologies.

We tailor specialist cleaning requirements to accommodate the client's requirements, ensuring compliance with site rules.

High Level Cleaning

Accumulations of dirt, dust and debris at high levels, both internally and externally, can affect the operation of your business.

Service Solution

We understand that seasonal issues, such as leaf falls in autumn, can clog guttering and cause floods. We tackle the most challenging of high level cleaning, delivering excellent standards using the safest methods.

We complete a thorough risk assessment prior to commencing any high-level cleaning work and have IPAF and PASMA trained cleaning operatives, using access equipment to safely carry out a range of high-level cleaning services.

Pressure Washing

Well maintained building exteriors give an excellent first impression of your business and brand.

Service Solution

We optimise the look, feel and safety of your premises by implementing a planned schedule of pressure washing.

Using our tried and tested techniques, we remove graffiti, moss, dirt and debris to ensure your premises always look their best.

We clean those ‘hard to reach’ areas including areas at high level.

Pressure washing of paths and walkways not only improves appearance, it also removes moss and algae which can be a slip hazard if left untreated.

Clean Room Cleaning

Cleaning of laboratories, clean rooms and research areas requires specialist knowledge and experience to meet exacting standards.

Service Solution

Our clean room cleaning procedure and programme lowers levels of contamination and ensures that areas are maintained to the highest standards, giving our clients peace of mind that they are clean and ready to use.

We ensure our clean room cleaning complies with all regulatory standards and in accordance with your standard operating procedures.

Innovation

We use innovative software and the latest technology to tailor our solutions, assuring attendance, value for money and continuity of service.

Service Solution

We use bespoke time and attendance software to monitor staff attendance and our electronic auditing solution provides service performance data and trend analysis.

Our unique employee portal gives staff the opportunity to elect for specific overtime shifts, in their choice of location.

Our unique client portal allows clients to access information and documentation, and to communicate easily and efficiently with their dedicated Spectrum personnel.

CLEANING
IN PROGRESS

Health and Safety

Health and safety is paramount to ensure your stakeholders are safe at all times.

We also understand that your premises are regularly inspected and are required to meet all health and safety standards.

Service Solution

Spectrum is certified to OHSAS18001 and are members of SAFEcontractor & ContractorPlus.

Spectrum has worked in Tier 1 COMAH sites for over 10 years, successfully providing cleaning and support services in the most hazardous of environments.

Janitorial Services

In busy production environments, maintaining cleaning standards throughout the working day is critical to provide a clean and hygienic working environment.

Service Solution

Our janitorial staff ensure welfare facilities are regularly cleaned and replenished throughout the working day.

Our staff are on-hand to provide comprehensive cleaning to welfare facilities, such as toilets, lockers and canteens, ensuring facilities are clean and hygienic for your staff.

We maintain cleanliness standards throughout your facility to ensure our clients are always ‘Visitor Ready’.
